Attachments: Aldicarb NMC DWA comparison write-up nt.docx

Amy et al,

I took a shot at editing/revising the write-up, trying to take out some of the jargon that Alex might not get (it probably could still be further de-jargonized). Let me know if that's easier to follow or where we need to further revise.

Phil V sent me an email yesterday afternoon saying he'd be willing to discuss how this would fit into the dietary discussion he's putting together for HED, but I wanted you all to take a look at this first. If you're comfortable with it, we can share that with Phil to see how well he follows it/how it might fit into their write-up.

Nelson

Subject: aldicarb NMC writeup

Hi,

Attached is the first draft of the write-up for the NMC cumulative comparison to the proposed action. I've based this off of the back and forth emails and discussions, but I know it could use some work. Since I'm not exactly sure what type of document this will end up in, it may be too technical or not enough. However, I expect it to be a companion piece to what HED writes up as well.

Thanks again for all your help.

Amy
